

SAFE FOR YOU, SAFE FOR THEM

A workshop for body mechanics for parents of special needs kids for lifting/transfers to prevent injuries and maintain safety for your child.

- ◆ **Is your special needs child getting too heavy to lift? Are you concerned with how you'll be able to manage transfers as they continue to grow?**
- ◆ **Do you ever fear that you may hurt your child while lifting or transferring? Or that you may hurt yourself?**
- ◆ **Are you worried about who would take care of your child if you were injured?**
